

FOR IMMEDIATE RELEASE

EFG Companies Empowers Administrators, Service Contract Providers, and Product Marketers to Expand Automotive and Powersports Capabilities with Turnkey Products and Administrative Solutions

DALLAS, TX (July 9, 2026) – **The EFG Companies announces a new comprehensive product administration platform targeting product providers and administrators seeking to expand their business. *EFG Admin Solutions* enables rapid product portfolio expansion, with faster time-to-market, expanded product offerings, entry into new markets, and accelerated growth—without increasing operational infrastructure. For more information, visit www.efgcompanies.com**

EFG Admin Solutions is built for automotive and powersports product providers and administrators ready to grow beyond their current business growth constraints. EFG provides the operational backbone, including white-labeled vehicle service contracts (VSCs) and GAP, claims administration, compliance, and infrastructure, enabling its clients to get to market quickly and stay focused on distribution, relationships, and revenue generation.

“Launching a new product program requires significant investment across state and lender regulatory filings, underwriting, actuarial development, and internal systems development—often costing tens to hundreds of thousands of dollars,” said Jay Hartmann, Chief Operating Officer of EFG Companies. “*EFG Admin Solutions* removes that burden, giving clients a ready-to-deploy path to expand their offerings under their brand without the time, cost, or operational complexity.”

Expand Faster—Without Expanding Operations

By leveraging EFG’s established, award-winning end-to-end platform, companies can:

- Launch fully supported, compliant products under their own brand
- Enter new markets with confidence
- Drive revenue growth without adding staff or overhead

Compliance and Risk—Managed for You

With nearly 50 years of experience in the consumer protection and claims administration industry, EFG is an expert in compliance and risk management issues facing administrators, service contract providers, marketers, and their automotive and powersports dealer clients. The *EFG Admin Solutions* platform includes complete oversight of complex federal and state regulatory requirements. In addition, EFG handles state filings, licensing, lender approvals, and specific regulatory requirements to reduce exposure and enable confident expansion. As a strategic business partner, EFG empowers its customers to scale faster, compete more effectively, and unlock new revenue streams while minimizing the risk of costly errors and fines.
